TOWN OF LONG LAKE

(518) 624-3001
supervisor@mylonglake.com

August 15, 2022

We are all very saddened to report the tragic and untimely death of a respected and beloved member of the Long Lake Transfer Station Staff. At approximately 9 AM on the 8th of August, a fatal industrial accident involving a roll-off trash bin occurred which resulted in the death of Steven Paige.

The matter is being investigated by my office so that I may report findings and seek any necessary Town Board actions.

The transfer station, after being closed during the state investigations, has now been reopened with additional health and safety measures to better protect employees and the general public.

Maintaining the operation of the transfer station is a critical health and safety matter for the entire community.

Steve Paige was new to our community. In his short time here, he earned great respect and many compliments for his diligence, friendliness, and helpfulness at the transfer station.

I know the entire town will join me in extending condolences to the family and loved ones that Mr. Paige's passing leaves behind.

Sincerely,

Clay J Arsenault
Town Supervisor
